Homeless and Food Insecure	TangoTab's Feed The City : Rockwall	100	2	It is a monthly community event that has been operating in Rockwall since August 2018. We bring volunteers from Rockwall and the surrounding communities together to make sandwich meals for those in need. We use standard sandwich making supplies of bread, meat, cheese, zip sandwich bags, and use Mustard as the middle condiment, as it is non perishable. Why do we put Mustard in the middle? "Because no one likes a soggy sandwich." We also use chips and tangerines to complete the meal. These meals are then distributed to those that are "Food Insecure". That doesn't necessarily mean "homeless". It means someone who doesn't know where their next meal is coming from. People suffer from Food Insecurity that are around us every single day. Many that look just like you and me. Kids, that intentionally flunk their favorite subjects in school, so they have to take Summer School where they are guaranteed a meal at least once a day. 1 in 6 people in North Texas alone suffer from Food Insecurity. 1 in 5 of those are children. It is our heart to fight this war on hunger, and more and more people in Rockwall are committed to joining this fight. Volunteers bring the sandwich making supplies and gather at On The Border in Rockwall at around 8:30 am the 3rd Saturday of every month. The event starts at 9:00 am. We make the meals until all the supplies are gone. The meals are then immediately taken to be distributed through different organizations in the community.	75087
Rockwall Helping Hands		8	4	-Help sort and stock food pantry. Shifts are 9:30-11:30 and 11:30-1:30. 4 volunteers per shift. -Can also have same time and volunteer numbers set up for having people take down shed.	75087

Salute the Kids	Family Camp Project	15	2	<p>Salute the Kids is a 501(c)(3) nonprofit organization, locally operated right here in Rockwall, Texas. Salute the Kids' mission is to support and recognize military connected kids and their families through camping adventures that create an opportunity for reconnection, togetherness and healing. We provide camps in both Texas and the Pacific Northwest for service members of every branch of the United States Military and their families, with an emphasis on the children of these service members. We believe it's important to address the unique needs of military children in our community and support the entire military family as they serve for all of us!</p> <p>The Family Camp Project suggested in this application is a Family Friendly, Kid Friendly Project! Every year before camp, we need volunteers to help prepare for the families attending camp. Volunteers will prepare supplies for camp arts and crafts, organize supplies for our coping strategy activity and prepare camp gifts that children receive at camp (flashlights, stress relief toys, etc.) The camp prep day is a critical part of our camp program, as being prepared before our families arrive at camp is critical! This project is perfect for families to do together, for a group of moms that enjoy cutting, glueing, organizing or for young kiddos that need a very kid friendly project!</p>	75087
Salute the Kids	Obstacle Course Build	8	4	<p>Salute the Kids is a 501(c)(3) nonprofit organization, locally operated right here in Rockwall, Texas. Salute the Kids' mission is to support and recognize military connected kids and their families through camping adventures that create an opportunity for reconnection, togetherness and healing. We believe it's important to address the unique needs of military children in our community and support the entire military family as they serve for all of us!</p> <p>The project recommended in the application is an Obstacle Course Build. We would need 8 volunteers to build an obstacle course that we will utilize at our Texas Camps. The obstacles are low level and fairly simple to build. Salute the Kids will provide a construction supervisor to oversee and lead the volunteers, plans are already in place...we just need the man power. Construction experience is not required but use of power tools, hammers, building supplies, etc. will be required. The obstacle course is a fun and therapeutic tool we utilize at camp to bring families together as a team as they compete against other families. Kids absolutely love seeing their parents run the course right along with them and it builds strength, confidence and resiliency...qualities all military kids and their families need!</p>	75087
